Medium term planning (3-4 outcomes, assessment task	4 weeks) has time-frames, learning			
Daily planning relates to medium/short (1 week) term planning;				
Planning allows for emergent learning;				
Planning is thematic;				
Planning caters for different stages of learner development.				
Educator's planning sustains class activities				
· · ·		Г		
Creates a learning environment (inside/outside class) conducive to learning and specific child interest				
	•			
(not only physical: plants, child belongings, free play, welcome song, attendance game, weather chart)				
Celebrates learners' work without creating clutter (including celebration of work/achievements during the activity)				
Manages well learner behaviour by using set classroom procedures;				
Establishes positive relationships with learners;				
Promotes productive intera	action among <del>all</del> learners;			
Establishes thematic corners (water and sand provision, book corner, art corner, role-play corner, writing corner)				
Educator organises and m effectively	anages learning environment			
Explores and acknowledges skills;	s learners' prior knowledge and			
	s in the context of the learners'			
realities to maximise discov				
Assigns tasks that form an i development;	integral part of activity			
Manages time in a way that sustains an appropriate learning pace;				
Adapts learning situations a	according to learners' progress;			
Activity closure revisits exp	ected learning outcomes.			
Educator scaffolds learning by adopting a clear activity structure				

## The Quality Assurance Department

Involves learners through appropriate questioning techniques;	
Tasks assigned engage learners enabling their progress according to their level of development;	
Makes use of incidental opportunities for learning;	
Integrates digital literacy in the learning process;	
Uses group work to increase learner involvement in the learning process;	
Uses different resources to address the different learning needs, abilities and preferences.	
Educator employs a creative teaching approach that involves and motivates learners	
Adopts a variety of assessment strategies that address	
learners' different needs and abilities;	
Includes parents in the process of reinforcing and extending the learning process;	
Provides learners with verbal feedback;	
Keeps record of learners' performance (samples of work, learning stories, record of development progress, etc)	
Educator implements ongoing formative assessment	
There is clear evidence of collaboration in planning between Educator and LSA;	
The Educator and the LSA collaborate to include the learner with a statement in the learning process;	
The LSA supports the Educator in facilitating the learning process of all learners in class.	
LSAs and Educators work in synergy for the benefit of all learners
